

## CAREER PROFILE

I am a software developer with over 10 years of experience in creating hybrid and full-stack applications. My expertise lies in building scalable, efficient, and user-friendly solutions that enhance user experiences across various platforms.

### Technical Skills:

Throughout my career, I have successfully managed the entire development lifecycle, from initial concept to deployment. I am passionate about writing clean, maintainable code and optimizing application performance. My problem-solving skills enable me to tackle complex challenges effectively. I thrive in collaborative environments and enjoy sharing knowledge with peers while continuously learning about emerging technologies. I am always open to new opportunities, whether it's developing innovative features, optimizing existing systems, or mentoring junior developers.

## EXPERIENCES

**Senior Technical Lead (Angular/NodeJS)** 2022 - present  
Robosoft Technologies, Udupi

### Responsibilities:

- Led frontend architecture design and implementation for enterprise and consumer applications.
- Mentored frontend teams and established coding standards and reusable component libraries.
- Collaborated with cross-functional teams to deliver scalable and performance-optimized solutions.

## PROJECTS

Below listed are some of the major projects which I have been a part of. There are many minor projects where I have worked too.

**British Standards Institution Auditing tool** - Robosoft Technologies

Worked on frontend Angular and Node.js backend for an auditing tool designed for business compliance and assessment.

Frameworks used

Angular

Node.js

Azure

## GE Healthcare Application

- CitiusTech

Worked on a healthcare collaboration platform enabling real-time communication and findings sharing between doctors and radiologists.

Frameworks used

ReactJS   NodeJs   AWS   Socket.io

## CS@Work (Capitaland)

- Robosoft Technologies

Developed frontend modules using Angular for a real estate management platform used by enterprise clients.

Frameworks used

Angular   .NET Core   mySQL

## Axis Mutual Fund - Investor App (Axis Mutual Fund)

Built a hybrid application using Angular 8 and Ionic 4 for Web, Android, and iOS platforms enabling investors to manage and track mutual fund investments.

Frameworks used

Ionic - Angular   Java (Spring)   Hibernate   Drupal

## IFA Connect (Axis Mutual Fund)

- Robosoft Technologies

Developed a hybrid application using Angular 6 and Ionic 3 for Web, Android, and iOS platforms enabling distributors to manage investments on behalf of investors and track portfolio performance.

Frameworks used

Ionic - Angular   Java (Play framework)   mySQL   Drupal

## NYL (New York Life Insurance)

- Majesco Ltd

Contributed to a life insurance software service product supporting employee associations and citizens across New York and the USA, designed with reusable architecture for multiple associations.

Frameworks used

Angular JS   Java (Spring Framework)   Hibernate   Oracle SQL

Drool tools
